

2000 acres of solar power station

Overview

The DeSoto I property spans over 2,000 acres with over 1,000 acres under solar panels and millions of feet of wire connecting to the substation. The project delivers 125 megawatts to the electric grid, intended to generate clean energy for the next four decades.

List of photovoltaic power stations

The following is a list of photovoltaic power stations that are larger than 500 megawatts (MW) in current net capacity. Most are individual photovoltaic power stations, but some are groups of co-located plants owned by different independent power producers and with separate transformer connections to the grid. Wiki-Solar reports total global capacity of utility-scale photovoltaic plants to be some 96 GWAC which generated 1.
