

30kW Photovoltaic Container for Construction Sites

Overview

Integrates foldable photovoltaic modules, storage inverters, batteries, and diesel generators into a standardized container. Pre-assembled container structure with sliding foldable solar panels. The PPFIC30K36P30 is a compact all-in-one solar storage system integrating a 30kW power output, 36kWh energy storage capacity, and 30kWp high-efficiency foldable PV modules-engineered for off-grid, remote, and temporary power scenarios. Folding. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container. Finally, a solar generator with 3-phase power and a portable design. Configurable both internally and by daisy-chaining multiple units, Dragon Wings.
