

ASEAN monitors solar energy systems

Overview

ASEAN countries have over 28 gigawatts (GW) of operating utility-scale solar and wind capacity, up 20% from 23 GW in the last year. What AEDS. Global Energy Monitor (GEM) develops and analyzes data on energy infrastructure, resources, and uses. org and on Twitter @GlobalEnergyMon. Despite this rapid growth and ambitious renewable goals, nations in the region face diverse challenges. These range from supply chain disruptions and political dynamics. Southeast Asia's energy demand is expected to triple by 2050, leading to a shift from fossil fuels to renewables like solar and wind energy. Consequently, ASEAN countries understand that renewable energy projects are key elements.
