## Overview

---

Belarus takes a bold leap into renewable energy integration with a cutting-edge storage system in Gomel. As Belarus' first utility-scale energy storage project, it's become the poster child for Eastern Europe's clean energy transition - and frankly, it's about time we. The BESS Series is a State of the art, high-voltage lithium-ion battery power and energy-storage system containerised in a 20' High Cube container. As the country aims to achieve 10% renewable energy integration by 2030, energy storage solutions have become critical for: "Energy storage. As Belarus flips the switch on its Minsk Energy Storage Plant this March, energy experts are calling it a "grid-stability milestone" for Eastern Europe.
