

Bendable photovoltaic glue board manufacturer

Overview

From solar panel adhesives and bonding compounds to electrical component encapsulation materials, Epic Resins is a leading supplier of resins formulated to withstand the intense environmental conditions common to solar energy system components. Lightweight solar modules bonded with high-performance adhesives from Innotec are a winning combination. Compared to installing traditional glass solar panels, bonding lightweight solar panels goes 30 - 40 % faster. Building on our experience in supplying bespoke tapes for manufacturing and installing photovoltaic panels, we continue to collaborate closely with you, our. Ultra-barrier film is engineered to replace glass in flexible solar applications. At 3M, we discover and innovate in nearly every industry to help solve problems around the world.
