

China Industrial Park Energy Storage Project

Overview

This C&I Energy Storage Project was developed as an industrial park energy storage deployment to improve daily power management and unlock more value from on-site energy assets.

China Industrial Park Energy Storage Project

928kWh Liquid-Cooled Energy Storage System

Recently, GSL Energy has successfully deployed a set of highly efficient and intelligent energy storage systems for a large industrial park in

[Industrial park microgrid launched for renewable energy use in east](#)

The microgrid project incorporates a range of innovative technologies, including energy collaboration, energy storage and vehicle-to-grid interaction, providing a technological solution for the

[1.5 MW / 3.132 MWh C&I Energy Storage Project for an Industrial Park](#)

This project shows how commercial and industrial energy storage can be deployed at park scale with both engineering discipline and practical operational outcomes.
