

Construction diagram of solar power greenhouse

Overview

Build your own solar greenhouse using this solar greenhouse design and construction diagram that will create a homemade greenhouse with optimum light for plant growth. Imagine a greenhouse that not only protects your crops but pays you back in energy savings. That's exactly what farmers in Arizona achieved last year. Picture this: snow outside, but your greenhouse is warm, quiet, and bursting with fresh greens-powered entirely by the sun. Just design, light, and smart thinking. If that sounds like a fantasy, it's not. Over the years, we've worked with growers, homesteaders, and. Full Size Blueprints (12'x24') Full, detailed construction plans and instructions to build your own 12' x 24' SunCatcher Classic using our proven, patented design. Get up close and personal with this super detailed, impeccably illustrated hi-res PDF. We know looking at that. The plans are 100% free, just enter your info and click the 'DOWNLOAD' button These plans cost \$15 a piece on other websites.
