### Ranked: The 15 Countries With the Most Solar Power

Solar energy capacity is growing rapidly, driving the global transition to renewable energy. This graphic visualizes the top 15 countries by cumulative

### Solar Power by Country 2026

Data and analysis including a list of solar power in every country in the world, countries with the most solar power, and countries that generate the highest

### [Top 10 Countries With the Most Solar Power Installed](#)

Discover the top countries with the most solar power installed in 2025. Explore global solar power growth trends, annual installation rates, and how

### About CIA

The CIA is a U.S. government agency that provides objective intelligence on foreign countries and global issues to the president, the National Security Council, and other policymakers to help them make

### [Top Solar Power Countries in 2025: Leading the Global](#)

Explore the top solar power countries in 2025, including China, the U.S., India, Japan, and Germany, plus emerging leaders like Brazil and

### Where is Solar Energy Used the Most Worldwide?

Solar energy is used all around the planet, but currently, China, Japan, and the United States lead the world in terms of total installed solar

### Which countries use the most solar energy? [Top 13,

Our rundown of the countries around the world using the most solar energy, from Mexico to China

### [Top 50 Countries That Use the Most Solar Power as a](#)

Data from BP's Statistical Review of World Energy 2022 and the International Energy Agency's solar energy statistics reveal the countries that are at the

### Solar power by country

Overview
