

# Development Zone Photovoltaic Energy Storage Project

**2MW / 5MWh**  
**Customizable**

## Overview

---

The proposed Discovery Solar PV and Storage Project is a photovoltaic (PV) solar facility with associated infrastructure necessary to generate up to 1,400 megawatts (MW) of renewable electrical energy with up to 8 gigawatt-hours (GWh) of energy storage capacity (approximately 1,000. The proposed Discovery Solar PV and Storage Project is a photovoltaic (PV) solar facility with associated infrastructure necessary to generate up to 1,400 megawatts (MW) of renewable electrical energy with up to 8 gigawatt-hours (GWh) of energy storage capacity (approximately 1,000. The Building Energy Efficiency Standards (Energy Code) include requirements for solar photovoltaic (PV) systems, solar-ready design, battery energy storage systems (BESS), and BESS-ready infrastructure. A solar PV system is prescriptively required for all newly constructed buildings. However, even. Discovery Solar PV and Storage Project by Discovery Solar PV and Storage, LLC (Terragen Solar) NOP - Notice of Preparation of a Draft EIR 7/24/2025 Generally vacant / Various Zoning: A (Exclusive Agriculture), A-1 (Limited Agriculture), PL (Platted Lands), FP (Floodplain Combining), FPS (Floodplain. Division of the State Architect (DSA) documents referenced within this publication are available on the DSA Forms or DSA Publications webpages. This Interpretation of Regulations (IR) clarifies Photovoltaic (PV) and Battery/Energy Storage Systems (BESS) requirements of project submittals to promote. In 2011, California adopted a Renewable Portfolio Standard (RPS) requiring that at least one-third of the state's electricity come from clean energy sources by 2020. Michael is the CEO of Cleanview. His reporting on clean energy and data centers has been cited in The New York Times, Wall Street Journal, and hundreds of other publications. On this. Explore more planned projects in California: On this page, you can explore our database of solar projects in California. As of April 2026, there are 272 solar.

## Development Zone Photovoltaic Energy Storage Project
