BESS

Overview

Chairman of Sungrow Power Supply Cao Renxian has proposed a cooperation plan to build an energy storage battery factory in Egypt with an annual production capacity of 10 gigawatts. Egypt aims to source 42% of its electricity from renewables by 2030, up from current capacity of 7. According to Egypt's National Information Service, on September 14 local time, Egyptian President Abdel Fattah el-Sisi. AMEA Power-backed BESS projects in Benban and Zafarana to deliver 1.5GWh storage under 20-year agreements. European Bank for Reconstruction and Development (EBRD) is studying senior debt financing of up to \$223.1 million to Obelisk Solar Power SAE, a.
