

Emergency Rescue Photovoltaic Energy Storage Cabinet for Fast Charging

Overview

The Energy Storage Rescue DC Fast Charging Station is a high-efficiency power solution designed for emergency and off-grid applications. 141-161kWh capacity, 0-250A output, IP54 rated. Request ROI analysis and technical demo today. The mobile charging station system integrates lithium batteries and charging. Whether you need to support fleet operations, emergency roadside assistance, or stabilize a microgrid, this mobile fast dc charger delivers a "double revenue" stream by balancing grid demand and providing flexible power. Provide emergency DC fast charging to stranded EVs.
