

Emergency rescue photovoltaic energy storage cabinet hybrid type

Overview

076kWh lithium-ion battery with cell-level isolation for safety, 6kW hybrid inverter, and intelligent air cooling, this system provides reliable backup power and maximizes solar energy utilization. Rapid-Deployment Power for Emergency Response The Injet FusionCab provides a dependable, rapidly deployable power solution for disaster relief and emergency response scenarios. Its modular and transportable design allows for trailer-based delivery, reaching disaster sites quickly even under damaged. High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.
