

# Export off-grid energy storage integrated device

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

## Overview

---

A zero export device prevents solar energy from flowing to the grid by throttling inverter output in real time. A client signs a PPA for a 200 kW rooftop system, and the grid operator stamps the application: "Zero. Energy storage is the capture of energy produced at one time for use at a later time to reduce imbalances between energy demand and energy production. Energy comes in multiple forms including radiation, chemical. Even in Off-Grid Mode, there are instances where you could potentially export to the grid when you do not intend to, and this guide is built on other settings. A Fortress Power battery system connects directly to your home's solar array. There are multiple different methods by which ESS can manage export, including the use of traditional relays as well as Power Control Systems that have recently been refined under a common standard. However, utilities, customers, developers.
