

Fixed inverter cabinet type for resorts in eastern europe

Overview

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust protection (IP55/IP65), it ensures reliable operation in remote, off-grid environments. Fuji Electric has developed the individual control cabinet solution: The cabinets can be customized. Available for the FRENIC-HVAC, FRENIC-AQUA, FRENIC-Ace, FRENIC-MEGA, FRENIC-VG. ICEENG CABINET serves customers in 18+ countries across Africa, providing outdoor communication cabinets, power equipment enclosures, and battery energy storage cabinets for telecommunications, utilities, and industrial applications. Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems. The dual wall concept provides a natural airflow between the outer and inner wall, substantially reducing the requirement for additional heat removal.
