

Generator container material

Overview

What Materials Are Considered the Best for Generator Enclosure Construction?

The best materials for generator enclosure construction include steel, aluminum, fiberglass, and polycarbonate. At a size of 28 L x 22 W x 22 H inches, this enclosure provides ample space for most standard generators, but it's important to measure your unit beforehand to ensure a proper fit. Recycled Claim Standard (RCS Blended) certified products contain recycled content (>50%) that has been independently verified at each stage of the supply chain, from the source to the final product. We custom build to our customers specifications up to 3MW. Our team delivers superior quality, always. Our one trip containers offer our customers the highest caliber of structural integrity. Uniwell designs and manufactures soundproof containers specifically for your generator sets, gas engines, biogas engines, oil engines, air compressor, battery pack and whenever soundproof is required, from standard 10ft-20ft-40ft-45ft ISO containers to oversized structures designed to meet your.
