

How much does a battery photovoltaic panel cost

Overview

As of early 2026, the average cost to install a home solar battery in the U.S. ranges between \$9,000 and \$18,000 before incentives. But one of the first questions homeowners ask is: how much does a solar battery actually cost in 2025, and what will change in 2026?

The answer depends on the size, type, and brand of battery you choose, as well as where you live and what incentives you qualify for. This guide breaks down. Adding an energy storage battery to a residential solar panel system typically costs \$7,000 to \$18,000.
