

How much does a photovoltaic panel company cost

Overview

Average solar panel installation costs range from \$8,379 to \$23,940 in California. How much you pay depends on the size of your system, what incentives you're eligible for, your home's sunlight exposure and other factors. Assuming an upfront purchase, it takes about 5.63 years to break even (when you'll pay an average of \$20,455 to install a system). With the end of the year, the first question on every homeowner's mind is simple: How much do solar panels cost in California in 2025?

This guide covers everything you need to know about solar costs, including average prices per watt, system size estimates, incentives, regional differences, and payback timelines.
