Overview

Total System Cost Beyond Rails: While rails cost \$35-135 each, complete mounting systems require \$750-1,050 in total components for a typical 20-panel installation, making rail selection just one part of the budget equation. **Rail Selection is Load-Critical:** XR100 rails handle most residential applications with 8-foot spans, while XR1000 rails are essential for high wind/snow areas with 12-foot spanning capability. Undersizing rails can lead to structural failure and warranty voids. How much you pay depends on the size of your system, what incentives you're eligible for, your home's sunlight exposure and other factors. Assuming an upfront purchase, it takes about 5.63 years to break even (when. How much does solar racking cost?
