

How to deploy the battery cabinet

Overview

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing. Do not contact a battery terminal or exposed wire connected to a battery terminal. NEVER allow a metal object, such as a tool, to contact more than one termination or battery terminal at a time, or to simultaneously contact a termination or battery terminal and a grounded object. Consult the battery manufacturer. This Interpretation of Regulations (IR) clarifies specific code requirements relating to battery energy storage systems (BESS) consisting of prefabricated modular structures not on or inside a building for structural safety and fire life safety reviews. The information provided in this document contains general descriptions, technical characteristics and/or recommendations related to products/solutions. This document is not intended as a substitute for a detailed study or operational and site-specific development or schematic plan. Here's how professionals approach installations: Will the battery storage system be sited indoors or outdoors?

- Depending on the size of the system. *This quick start guide is intended to be used as a supplement to the PWRcell 2 Installation manuals. To top-align enclosures, start with the battery cabinet.

How to deploy the battery cabinet

Automatically install apps and extensions

Then, after you verify that extension policies are being applied correctly, you can fully deploy them. On a managed device, go to <chrome://policy>. Click Reload policies. Check the Show policies with no value

IR N-3: Modular Battery Energy Storage Systems

Battery energy storage systems (BESS) are devices that enable energy from renewables, like solar and wind, to be stored and then released when customers need powers most.

Mounting Guide:

If there are still questions, contact Generac PWRcell Technical Support at 1-855-635-5186 or visit for assistance. Refer to the PWRcell 2 Battery Installation manual fastener

4. Deploy and test

Microsoft System Center Configuration Manager
If you're using SMS or other tools to deploy software, you should push the Chrome browser MSI package just like you would for any other .msi installation.
