

Icelandic Power Storage Company

Overview

EIEI POWER specializes in solar inverters, photovoltaic inverters, energy storage systems, storage containers, battery cabinets, solar cells, lithium batteries, and photovoltaic solutions for Polish and European markets. company focusing on energy solutions, drawing on expertise in battery energy storage solutions. In Alor's research project we are working on an innovative solution that will combine diesel generators with repurposed EV batteries to create a hybrid system. To transform used EV batteries into hybrid. It is located in the Mid-Atlantic Ridge making it one of the most tectonically active places in the world. The country is blessed with 200 volcanoes and over 600 hot springs. With 85% of its primary energy already coming from renewables, Iceland aims to achieve 100%. Who Needs Portable Power in the Land of Fire and Ice?

Imagine charging your phone during a midnight sun camping trip or keeping medical equipment running during a blizzard - that's the reality driving Iceland's portable energy storage demand.
