

# Industrial and commercial photovoltaic energy storage solution

## Overview

---

These commercial and industrial storage systems range from 20 kWh to MWh class, and due to their relatively high capacity and performance, they provide system services for solar batteries for commercial use, including electric vehicle charging infrastructure, photovoltaic power. These commercial and industrial storage systems range from 20 kWh to MWh class, and due to their relatively high capacity and performance, they provide system services for solar batteries for commercial use, including electric vehicle charging infrastructure, photovoltaic power. EVB delivers advanced energy storage solutions especially for industrial and commercial applications. Our modular LFP battery packs are scalable, catering to storage requirements ranging from kWh to MWh. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options. Collaborating with diverse energy sources to ensure uninterrupted 24/7 power supply in off-grid scenarios.
