## Overview

---

A solar power container is a modular and portable unit designed to provide electrical power through solar energy. Typically built inside a shipping container, these systems are equipped with solar panels, battery storage, and an inverter to convert DC electricity. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Shipping container solar systems are transforming the way remote projects are powered. Whether you're managing a construction site, a mining operation, or an emergency. Mobile Solar Containers revolutionize energy access. Off-grid living and clinics: Even homes and clinics have been built from shipping containers.
