

# Lithuania distributed solar energy storage project

## Overview

---

Announced in late 2023, this ambitious project will see solar installations rolled out across numerous commercial and industrial (C&I) sites, with work commencing in 2024. The 50 MW portfolio is more than just a number; it represents a substantial contribution to Lithuania's clean. Lithuania aims to generate 45% of its energy from renewables by 2030. Kaunas faces three specific challenges: "Energy storage isn't just about batteries - it's about creating an adaptive power. Smart energy leader SolarEdge Technologies has joined forces with Ignitis Group, Lithuania's largest energy utility, to deploy a massive 50 MW rooftop solar portfolio across the country. This article explores the project's technical framework, its alignment with EU sustainability goals, and how it addresses regional energy challenges. 2GWh of energy storage projects. Lithuania's Ministries of Energy and the Environment have jointly approved an additional €37 million in funding to expand the country's capital expenditure (capex) support for energy storage projects. 8 billion) into wind and solar generation in the Baltic state.
