

Major energy storage project in palau

Overview

Comprising 35 MW of dispatchable, solar power generation and 45 MWh of lithium-ion battery energy storage capacity, Armonia will be coupled with current diesel generation "to transform the Palau grid into a smart, integrated system with an overall installed power of over 100 MW. Comprising 35 MW of dispatchable, solar power generation and 45 MWh of lithium-ion battery energy storage capacity, Armonia will be coupled with current diesel generation "to transform the Palau grid into a smart, integrated system with an overall installed power of over 100 MW. The Pacific island country of Palau has welcomed the commissioning of its first large-scale solar-plus-storage project, representing the largest power plant of its kind in the Western Pacific region. According to its developer Solar Pacific Energy Corporation (SPEC), a subsidiary of. After a competitive RFP process, SPEC was awarded a Power Purchase Agreement (PPA) in April 2021 to supply 23,000 MWh annually to Palau Public Utilities Corporation (PPUC). Solar electricity will be produced by a hybrid 15.9 MWh battery. Palau celebrated the inauguration of its groundbreaking solar-plus-storage project, marking a significant milestone in the region. With 100 MW of power generation and distribution capacity, the Armonia microgrid will enable Palau to meet its 45%-by-2025 renewable energy goal five years ahead of.
