Overview

Malawi and GEAPP will begin constructing Africa's first 20 MW battery energy storage system (BESS) in Lilongwe, which is set to be completed in 2025. This critical project battery energy storage system, a first-of-its-kind in Malawi is more than just a remarkable. The state-of-the-art power plant is the first utility-scale grid-connected hybrid solar and battery energy storage project in Malawi and the largest in Sub-Saharan Africa. It comprises 52,000 bi-facial solar panels and. The initiative aims to cut carbon emissions by 10,000 tons annually while. Backed by our Alliance, and implemented by the state utility ESCOM, the project will install a 20MW/30MWh battery system in Lilongwe. The system will store electricity when supply is high and release it when demand peaks, helping balance the grid and support greater use of renewable energy.
