

Namibia s 10 billion energy storage project

Overview

Namibia's energy sector has transitioned from exploration to execution. The US\$10-billion Hyphen Hydrogen Energy project, backed by a sovereign agreement and international equity partners, is sub-Saharan Africa's largest green hydrogen initiative. The African Development Bank's Board of Directors has approved a \$10 million loan to Hyphen Hydrogen Energy, a Namibian green hydrogen development company, to support a green ammonia project valued at more than \$10 billion and with the potential to position Namibia as a pioneer in the global green. In May 2024 the World Bank approved a US\$138. This was the first major financing package dedicated to strengthening Namibia's transmission grid and deploying large-scale battery storage. The total project capital investment of over. One of Germany's biggest utility firm, RWE, has withdrawn its support from Namibia's \$10 billion Hyphen Hydrogen Energy project.
