

Nissan v2g electric vehicle energy storage power station

Overview

At Nissan's Advanced Technology Center in Silicon Valley, this pilot, which is part of ChargeScape and Leap's broader California Virtual Power Plant, will use energy stored in EV batteries, managed by Fermata Energy's bidirectional chargers, to export power during periods of. At Nissan's Advanced Technology Center in Silicon Valley, this pilot, which is part of ChargeScape and Leap's broader California Virtual Power Plant, will use energy stored in EV batteries, managed by Fermata Energy's bidirectional chargers, to export power during periods of. Nissan and ChargeScape just launched a new EV-to-grid (V2G) pilot in Silicon Valley, where demand on the power grid is growing fast thanks to the rapid rise of AI-driven data centers. The pilot is backed by the California Energy Commission's Demand Side Grid Support (DSGS) program and is happening. ChargeScape, an automotive joint venture focused on EV-grid integration, and Nissan have launched a new vehicle-to-grid (V2G) pilot in the utility territory covered by Silicon Valley Power (SVP). Silicon Valley is one of the world's data center hotspots, and utilities such as Silicon Valley Power. The new V2G pilot by Nissan and ChargeScape helps stabilize Silicon Valley's grid. Nissan's next-generation all-electric vehicle lineup. Nissan Japanese car manufacturing giant Nissan has recently launched a new vehicle-to-grid (V2G) pilot to power Silicon Valley's strained electricity. SANTA CLARA, CA - September 10, 2025 - Nissan, in collaboration with ChargeScape, has launched a new vehicle-to-grid (V2G) pilot program in Silicon Valley, turning electric vehicles (EVs) into crucial assets for the region's strained power grid. The initiative aims to alleviate the surging. A groundbreaking vehicle-to-grid project at California's Redwood Coast Airport is demonstrating how electric vehicles can serve as more than just transportation—they're becoming mobile power plants that strengthen grid resilience and reduce costs. This pilot is possible through the.
