

Operation mode of new energy photovoltaic panels

Overview

Photovoltaic system is mainly divided into five modes: "self-use, surplus power to the Internet", "self-use, surplus power not to the Internet", "full grid-connected", "off-grid" and "parallel / off-grid".

Operation mode of new energy photovoltaic panels

operation

a process of a practical or mechanical nature in some form of work or production: a delicate operation in watchmaking. a course or procedure of productive or industrial activity: building operations.

operation

An operation must not be confounded with the process by which the operation is effected. Thus, there is but one operation of extracting the cube root of a number, but there are several different processes.
