

# **Principle of making photovoltaic panels with aluminum foil**

## Overview

---

It's not possible to make a functional solar panel with aluminum foil. A solar panel is made from silicon and involves a complex manufacturing process that cannot be replicated with household items like aluminum foil. While it won't produce a significant amount of power, it serves as a great hands-on experiment to understand the basics of photovoltaic cells and renewable. Constructing a solar panel with aluminum foil offers a cost-effective approach to harnessing solar energy.

## Principle of making photovoltaic panels with aluminum foil
