

Scalable smart pv-ess integrated cabinet for island use

Overview

The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, batteries, and loads, meeting various user-side applications.

● **High Integration** The equipment is highly integrated, with a compact product size, occupying only 1.2 square meters per installation. no circulating current, safer for use. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protection system, distribution system, thermal management system, and energy management system. This. Ener Hexon® Smart 103P The Ener Hexon® Smart 103P is an integrated energy storage solution that combines 9 air-cooling battery packs, a 50kW hybrid inverter, a BMS, an EMS, an intelligent temperature control system, a precision suppression and explosion-proof integrated fire protection system. **Standardized Structure Design:** Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet.
