

Solar Photovoltaic Panel Construction General Contracting

Overview

Solar Construction LLC is a leader in commercial and utility-scale mechanical solar installations and civil work. We specialize in solar site preparation, foundation excavation, post-pounding, ballast block pouring, concrete foundation work, solar racking assembly, solar panel. We provide best-in-class service to solar developers and asset owners. Services include project acquisition and development, construction management, and engineer-procure-construct (EPC) support for the development, execution, and operations of high-quality PV solar projects. Our experience in PV. In-house resources to evaluate, design, install, and maintain renewable energy solutions for new and existing buildings of any size and type. Our certified solar contractor in San Jose, Las Gatos and Campbell, California ensures each client receives the highest quality solar energy systems, even after the. Photovoltaic (PV) panels are what most people think of when they imagine solar systems. They consist of thin sheets of PV cells encased in frames, which collect photons from the sun and convert them into direct current (DC) electricity. Bay Area Restorations is a locally owned & operated company. Expect quick response and 24/7 emergency service in and around the.
