

# Solar battery cabinet lithium battery pack belongs to

## Overview

---

This product belongs to the Prismatic Lithium-Ion Battery category, specifically designed for stationary energy storage systems using LiFePO<sub>4</sub> chemistry. It offers increased safety, compact size, light weight, and fast charging. And also more user-friendly. Built with premium prismatic LiFePO<sub>4</sub> cells, this robust cabinet delivers exceptional cycle life (up to 6,000 cycles at 80% DOD), ensuring reliable performance in residential, commercial, and industrial environments. Designed with a scalable architecture, it supports parallel expansion up to 100kWh. The cobalt free Lithium Iron Phosphate (LFP) battery from BYD guarantees maximum safety, life cycle, and power. The robust chemistry and universal design can work in a wide range of temperatures and areas around the world. The Battery-Box meets the highest safety standards like VDE 2510-50. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. ♦ Steel side and base, with.
