Overview

TEXAS - Families across Texas say a Houston-based solar energy company is preying upon the elderly and disabled, getting them to sign long-term payment plans for solar panels they can't afford. The stories the families are telling share striking similarities. "They go door to door selling to people. Holt signed a 43-page contract electronically, but never received a physical copy. Set a password so you can come back and manage your account. These custom electrical safety signs and photovoltaic identification signs are commonly used to label. Code-Making Panel 4 of the National Electrical Code recently completed its final changes to the NEC2026 code for articles related to labeling within the solar industry including PV labeling requirements. After reviewing public input late in 2023, the first draft of the new code was completed in.
