

# Solar power generation from used batteries

## Overview

---

This article reviews some of the best portable solar generators equipped with replaceable or swappable batteries, highlighting their capacity, portability, charging speed, and included solar panels. To power your home during a PG&E power shutoff, lithium-ion batteries are the primary clean energy storage solution on the market at this time. The innovative solution stores excess solar and wind energy for homes and businesses. But how to build your own solar generator for home or small devices?

This full guide walks you through everything you need to know about DIYing your own solar. For more information, download the SGIP Eligibility Criteria Matrix to get an in-depth look at the qualifications. Use this tool to learn whether your electricity was shut off during a Public Safety Power Shutoff (PSPS).
