

Solar power generation target market research

Overview

The solar tracker for power generation market is expanding rapidly due to increasing global investments in renewable energy, supportive policy frameworks, and the need for higher efficiency in solar installations. The global solar power market size was valued at USD 253.69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436. The growing demand for sustainable energy production sources to replace the conventional sources of.
