Overview

The Solomon Islands Renewable Energy Development Project plans to finance new solar farms in Guadalcanal and Malaita provinces, along with a utility-scale grid-connected energy storage system in Honiara, the country's capital. It will also support a pilot for rooftop solar at two. Superfly is Solomon Islands only quality focused solar energy company. We only use lithium batteries; and we stick to quality components from manufacturers like Deye and. Imagine a world where remote villages have reliable electricity without relying on expensive diesel generators. The Asian Development Bank, Saudi Fund for Development, and Solomon Power are all financing the project. Delivered by Archipelago Energy in partnership with the Australian Government through the Business.
