

Sweden announces subsidies for energy storage projects

Overview

It has announced a government subsidy that will cover 60% of the cost of installing a residential energy storage system up to a maximum of 50,000 kroner or \$5,600. The credit applies to the battery, wiring, control systems, smart energy hub, and installation work for homes with. The European Commission has approved, under EU State aid rules, a €3 billion (SEK 36 billion) Swedish scheme to support carbon capture and storage ('CCS') aimed at reducing carbon dioxide ('CO2') released during the combustion or processing of biomass ('biogenic CO2'). Battery, wiring, management systems and installation will all be eligible for payment under the subsidy. With a budget of 36 billion Swedish kronor (€3. 14 billion) for the period 2026-2046, the. Following the initial announcement in October 2024 that Mine Storage had been selected for a sizable grant from the EU Innovation Fund, the agreement has now been finalised. As of April 1st, the Norberg project (Sweden) officially begins, with a confirmed €20 million in funding secured after the.
