### Creosote running down outside of pipe, inside of house

The past few days, creosote is running down the outside of the pipe that is inside the house, between the ceiling and the stove. The exterior pipe looks fine. Also, this fall we had resealed

## Two story house

The house is fairly well insulated with good windows. It runs fairly stable around 60 on second floor. I run first floor at around 65. this is with temps in the teens at night and twenties

## DESIGNING A NEW HOUSE FOR WOOD HEATING

I built a boiler building away from the house insurance on it is \$16 a year. With new construction I would include hydronic tubes in the slab best heating ever. The boiler was expensive

## 2009 House with Fireplace Insert

Our house was built in 2009 and it has a beautiful fireplace with an insert. We didn't do too many fires last winter (maybe 1) but this year are wanting to use it more.

### My house is "concrete slab" foundation (no basement). Am I losing

## How to route chimney in a cape-cod style house

Hi all, I'm new to the forum, but I have heated with wood since I was little. We now have a house that doesn't have a chimney, and we bought an Englander (2200 sq ft model) wood stove from

## [mini split usage in 2-story home with small bedrooms on second floor](#)

Hi, I have been exploring my options to add AC to my 2-story, 1600 sq ft 100-yr-old home. I have ducts but they are very old and would probably need to be redone, since I have no returns on

## [Amazon listed a portable tiny house that comes with solar panels](#)

What's especially unique about the tiny house is how the manufacturer gives you the power to customize the layout. You can get the 20-foot home expanded to as large as 40 feet with up to three
