

Tonga Photovoltaic Folding Container Long-Term Type

Overview

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation. The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with. The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This system is realized through the unique combination of innovative and advanced container. ge (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Get a quick battery storage, and. Would you like to generate clean electricity flexibly and efficiently and earn money at the same time?

With Solarfold, you produce energy where it is needed and where it pays off.
