

Turkmenistan solar energy policy

Overview

In 2021, the President of Turkmenistan adopted the Law of Turkmenistan "On Renewable Energy Sources", for which regulatory acts are being developed to promote the practical use of renewable energy in various sectors of the country's economy. Addressing inefficiencies in the oil and gas sectors is crucial, as outdated infrastructure leads to. Turkmenistan is embarking on an ambitious overhaul of its energy sector, backed by new legislation and significant international partnerships aimed at achieving climate neutrality by 2050. The assignment is part of the UNECE project "Support to Policy Making and Building National Capacity towards Green Energy Transition in Turkmenistan" implemented in partnership with.
