

Uninterruptible power supply for repeater

Uninterruptible power supply for repeater

Do we need to call `set_current_state (TASK`

Yes, you must call `set_current_state()` before calling `schedule()`, because otherwise the scheduler will not remove the task from the run queue (if you just want to potentially allow other tasks

how to find out what it is waiting for

When looking at the process with "ps ax" the stat column is "DI" which means "uninterruptible sleep (usually IO)". Is it possible to find out more details on what the process is

[How can I put process into "uninterruptible sleep"?](#)

I'm noticed that process that dumping a core is in uninterruptible sleep, so it can't be killed with SIGKILL, but when I'm trying to emulate this behavior using pipe commands that receives coredump I can

West Mountain Radio Super PWRgate Battery Backup

Super PWRgate PG40S units eliminate the danger of connecting a power supply

[Does read/write blocked system call put the process in TASK](#)

The Uninterruptible state is mostly used by device drivers waiting for disk or network I/O. When the process is sleeping uninterruptibly, signals accumulated during the sleep are noticed when

[Building a DC Uninterruptible Power Supply for Your Ham Shack](#)

The Super PWRgate PG40S is a 12V backup power switch/charger designed to power equipment from either a power supply or battery. In the case of a power blackout or power supply failure, the device

[Power-Pac with Battery Back-Up , 12V DC , 5 Amps , 7](#)

The Power-Pac's highly regulated, low ripple 10 amp output powers radios and other sensitive communications equipment without causing RF or audio

[Many open files leading to uninterruptible sleep "D state"](#)

An uninterruptible D state is entered when a disk driver is seeking for some data in the disk and the disk has to be waited for for the process to continue. Normally a process sticking on a D

[What are use cases of making Java method UnInterruptible](#)

What are other use cases that we might want to use the same pattern of uninterruptible code?
Edit: I just realised I linked it to incorrect method.
public static boolean

[Large Battery Backup for Public Safety Repeaters / DAS, UL 2524 Listed](#)

Shop Large Battery Backup For Public Safety Repeaters / DAS, UL 2524 Listed By Advanced RF Technologies (ADRF-BBL-U) At Graybar, Your Trusted Resource For Uninterruptible Power Supply

How to stop 'uninterruptible' process on Linux?

I have a VirtualBox process hanging around which I tried to kill (KILL/ABORT) but without success. The parent pid is 1 (init). top shows the process as D which is documented as "uninterruptible sl

[Why there is a state called 'TASK_UNINTERRUPTIBLE' in Linux](#)

Another question is, if we enable PREEMPT then the linux kernel become a preemptive kernel so at any place when we are handling a syscall in the kernel mode, it may be preempted so

[Major Uninterruptible Power Supply Technologies or Topologies](#)

Here's a short summary of the design features and the power problems they handle. In the table, the last three columns indicate which UPS types can be effective in dealing with the particular issue.

[TASK_UNINTERRUPTIBLE and process threads in linux kernel](#)

I have a running process which has created multiple user mode threads. If the kernel changes the state of the process to TASK_UNINTERRUPTIBLE (or TASK_INTERRUPTIBLE) do the
