

What does the rated capacity of the energy storage cabinet relate to

Overview

In energy storage systems, Rated Capacity refers to the total amount of energy a battery is designed to store, typically expressed in kilowatt-hours (kWh). This is the theoretical maximum energy content under ideal conditions. However, regarding capacity allocation, there are various understandings, such as rated capacity, nominal capacity, installed capacity, discharge capacity, charge capacity, etc. A system with a higher power rating can charge or discharge.
