

**Which part does the photovoltaic bracket belong to**

## Overview

---

A solar mounting bracket -often called solar racking or a mounting system-is the engineered backbone of any photovoltaic (PV) installation. Photovoltaic bracket is a special bracket used to install solar panel. It together with photovoltaic modules, combiner boxes, inverters and other core equipment constitutes a photovoltaic power generation system. The general materials include aluminum alloy, carbon steel, and stainless steel. Designed for durability and precision, these brackets are engineered to withstand various environmental conditions, from extreme weather to long-term wear. Whether you're planning a rooftop array or a ground-mounted solar. Here's a guide that will help you know everything essential about the PV panel mounting brackets or solar panel brackets- necessities, benefits, types.
