

# Zambia Solar PV Panels

## Overview

---

As the largest single photovoltaic (PV) project by installed capacity in the country, it will deliver 180 million kWh of clean electricity annually, meeting the needs of 150,000 households and reducing the region's power shortages by 30 percent. manufacturer and supplier of photovoltaic products, offering complete photovoltaic power system solutions for residential, commercial and industrial plants. Commissioned in June 2025, the project plays a significant role in Zambia's efforts to diversify energy sources and reduce reliance on. Solarmacs Group stands at the forefront of Africa's transition to clean, reliable, and modern energy systems. State-owned power company Zesco has completed the 100 MW Chisamba solar farm. Each project must have a planned installed capacity between 30MWac and 100MWac. Credit: Snapshot freddy/Shutterstock.
